

PUBLIC AND NON PUBLIC ROAD REGISTER

Controlled Copy

1.0 Introduction

In accordance with the **Road Management Act 2004**, all road authorities are required to keep a register of public roads for which it is the coordinating road authority.

The register outlines which roads are public roads and fall with the responsibility of Mount Alexander Shire.

2.0 What is included in the Road Register

The list of public roads includes all roads and associated assets for which Council accepts responsibility. It includes sealed roads and unsealed roads in both urban & rural areas along with any associated assets such as footpaths, trees, furniture that Council may be responsible for.

It should be noted that Council may include additional information in its register that it deems appropriate and that may assist to clarify any issues.

3.0 Demarcation Issues

Mount Alexander Shire bounds onto the following municipalities:

- Greater City of Bendigo
- Loddon Shire Council
- Central Goldfields Shire Council
- Hepburn Shire Council
- Macedon Ranges Shire Council
- Mitchell Shire Council

In order to identify which road authority is responsible for specific areas or components of the joint asset, a formal Memorandum of Understanding (MOU) is to be entered into with each of the neighbouring road authorities. Similarly, an MOU will be entered into with Vic Roads again to specifically identify areas or components of assets for which Council is responsible on roadways where Vic Roads are the responsible road authority.

The outcomes of these agreements are contained within schedule A. (Not Attached).
