Your guide to residential recycling and waste services

For further information visit www.mountalexander.vic.gov.au/My-Property/Waste-and-recycling or call our Customer Services staff 5471 1700.

Recycling bin (fortnightly)

YES telephone books, school and office papers, envelopes, junk mail, flyers and brochures, newspapers and magazines

Pak, UHT, aseptic packaging)

YES glass bottles and jars (including lids)

YES rigid plastic containers and bottles generally those from the kitchen, bathroom and laundry

Your bin with the yellow lid is for all recyclables and is collected fortnightly.

Correct bin placement

Please place your bin near the kerbside with the wheels facing away from the kerb. Keep at least half a metre space between bins and other objects. Your recycling bin should not be placed outside the property boundary except within 24 hours either side of the day of collection.

Please prevent street litter

Ensure your bin is not overflowing and the bin lid is properly closed so its contents cannot fall out. Excess recyclables placed beside your bin will not be collected. A free drop-off service for quantities of recyclables (with the exception of cardboard) is available at the Castlemaine and Maldon Transfer Stations.

Rubbish bin (weekly)

Your bin with the green or red lid is for all general household rubbish that you have identified as non recyclable. Your rubbish bin is collected weekly.

Bins will not be collected if rubbish is overflowing; your bin weighs more than 60kg or contains any of the following: hot ashes, tree stumps, liquids such as oil or paint, large pieces of metal or stone and building material. Rubbish left beside your bin will not be collected.

Correct bin placement

Please place your bin near the kerbside with the wheels facing away from the kerb. Keep at least half a metre space between bins and other objects. Your rubbish bin should not be placed outside the property boundary except within 24 hours either side of the day of collection.

Please prevent street litter

Ensure your bin is not overflowing and the bin lid is properly closed so its contents cannot fall out. Excess rubbish placed beside your bin will not be collected.

Downsize your rubbish bin and save

Residents can significantly reduce their rubbish collection charges by downsizing to an 80 litre rubbish bin.

🔊 How do I down size?

To change your rubbish bin size please <u>lodge a service request online</u> or call our Customer Services staff on 5471 1700.

Overflowing bins may not be collected

Green waste and composting at home

Did you know?

Each year, Victorians throw out enough food waste to fill the MCG three times! Reusing your food waste by making compost or worm juice not only reduces the amount of waste you send to landfill, it also makes great food for your garden!

Composting

Composting is an efficient and environmentally friendly way to reduce the amount of waste you put into your rubbish bin. Composting has many benefits it greatly improves the health and fertility of soil including its ability to retain moisture, saves landfill space and reduces greenhouse gas (methane) from rotting waste in landfills.

Composting also reduces the cost of rubbish disposal. It is nature's own way of recycling!

Visit <u>www.yimbycompost.com</u> for more information on composting at home.

Worm farms

A worm farm is a fun and easy way to recycle, with the added bonus of creating a valuable fertilizer for your garden. Worm farms are a particularly good way of recycling food scraps and can be purchased from most hardware stores.

Green waste

You can take garden prunings and grass clippings to the Castlemaine and Maldon Transfer Stations. (Please note that plant material that is classified as an Environmental Weed by the Department of Primary Industries will not be accepted as green waste and will be charged at the higher general waste rate.)

Reduce your waste and help fight climate change

Council's waste management facilities

Bulky Items

Items that can not be disposed of in your kerbside waste or recycling bin, including furniture, household appliances and car parts can be taken to Council's waste transfer stations. Council does not provide a hard waste collection service.

E-waste Recycling Station

ecobox

E-waste

E-waste is discarded, obsolete or broken electronic or electrical equipment. It can pose a significant risk to people and the environment if not dealt with appropriately. E-waste is a valuable resource that should be recycled.

You can take e-waste to the Castlemaine or Maldon Transfer Stations. A small fee applies.

Council runs two waste transfer stations where you can dispose of green waste, hard waste and e-waste.

Castlemaine Transfer Station

Sluicers Road, Castlemaine

Open: Monday to Friday 10.00am to 4.00pm Saturday and Sunday 10.00am to 5.00pm

Maldon Transfer Station

- Morris Street, Maldon
- Open: Wednesday and Friday 9.30am to 1.00pm Saturday and Sunday 9.00am to 1.00pm

The Castlemaine and Maldon Transfer Station are closed on Good Friday, Christmas Day and New Year's Day. They will also be closed on days of total fire ban and days classified as Code Red or Extreme.

Chemicals, phones, light bulbs and more

Castlemaine and Maldon Transfer Stations

NO: Household chemicals such as weed killer, fly spray and bathroom cleaner.

These can be disposed of at Sustainability Victoria's mobile Detox Your Home Service.

You can find more information by visiting www.sustainability.vic.gov.au

YES Motor oil

YES Automotive batteries

YES Household batteries

YES Barbeque gas bottles

YES Paint (dry only)

YES Compact fluorescent lights and tubes

YES drumMUSTER labelled containers accepted. Must be washed clean of chemical and subject to inspection upon entry

Help us to empty your bins!

Your rubbish and recycling bins are picked up by a single operator collection vehicle with a mechanical lifting arm. The driver operates the mechanical arm from inside the truck and will not leave the truck cabin.

Your bins will be emptied if you:

- place them at least half a metre apart on the kerbside
- make sure the wheels are facing your property

🖌 place your bins on the kerbside the night before your collection day

For residents in rural areas, please place your bins one metre off the formed road, well clear of the traffic. For residents who live in courts, please take your bins to the nearest straight part of the road, where they are easily accessed by the collection vehicle.

Missing or damaged bins?

Rubbish and recycling bins remain the property of Mount Alexander Shire Council and should not be removed from the property. If your bin is missed or damaged, please <u>lodge a service request online</u> or call our Customer Services staff on 5471 1700.

Not sure of your collection days?

Council's Collection Calendar is a useful reminder to keep track of rubbish and recycling collection days. It can be downloaded from Council's website.
