

| Project Title | Project Description | Organisation |
|---|---|--|
| Create Space | Create Space will be a weekly time & space for people to meet up, bringing along whatever “thing” they’re working on (craft, sewing, decorating, whatever) and be together doing their thing, as a social, creative, no pressure gathering. | Castlemaine Community House |
| Activity packs for social support clients | Maldon Hospital social support clients will receive 3 rounds of activity packs whilst usual programs are not occurring. Activities which will encourage them to exercise, stay mentally engaged, and will promote mindfulness. | Maldon Hospital |
| CFF Reactivate – Street Music | CFF Reactivate 2020/21 will bring high streets around Mount Alexander to life with street musicians and roving performances – reactivating our towns with vibrancy and colour and bring a smile to everyone’s dial through a series of lead-up performances presented in a COVID safe way. | Castlemaine Fringe Festival |
| Iso-breakers | Themed walks in Maldon, with a twist: <ul style="list-style-type: none"> • A fun way to join others, reconnect with what’s around and break the social fast • An informal avenue for seeing and becoming engaged in various local cultural and community groups. | Maldon Neighbourhood House |
| Growing Connections at Community Kitchen Garden (CKG) | Growing Connections is about enhancing social connections in a community garden space, by establishing strong foundations for engagement with and supporting new volunteers to participate and connect. | Castlemaine Community House |
| Tarrangower Tomorrow – Understanding Tarrangower’s COVID-19 experience | We want to understand the impact of COVID-19 Pandemic on the Tarrangower community, how to respond as a community and what is required for recovery. These questions will be incorporated into the Community Survey sent to all residents, businesses and non-resident ratepayers as part of the Tarrangower Tomorrow Community Plan. | Tarrangower Community Forum |
| Connecting community members without technology | Explore ways to provide access to activities and social connections for people in Mount Alexander Shire who are isolated and vulnerable, and do not have the technology to connect with others online. | Chirp Community Health |
| Filling the Gaps | This project will deliver a number of Castlemaine Commons YouTube Shows as a way to bring together community people, groups and networks. This will result in strengthening their resilience and form new resilience groups. We will identify, strengths and extent of community mutual aid, and generate conversations, actions and momentum that will enable inclusion and service access during these times. | Castlemaine Commons |
| Mental Health resource wallet card | To produce a mental health resource wallet card which gives clear and simple advice to all community members around what to do if they feel anxious or depressed, how to access professional help and how best to help others. | Central Victorian Primary Care Partnership |
| Broadcasting: communicating COVID-19 information to multicultural communities | This initiative seeks to broadcast COVID-19 updates in-language to the multicultural Castlemaine community: radio, media, social media and council media. This targets the ‘invisible community’, who may be unaware of the supports that exist in this region, and those for whom written English and/or other literacies may be a consideration. | Loddon Campaspe Multicultural Service |
